## Foreword

The West Virginia Report Cards: State, County and School Data for 2005-2006 contains information for the most recentlycompleted school year. This information is provided annually "to the parents of public school children and the general public on the quality of education in the public schools" as mandated by the West Virginia Legislature through West Virginia Code §18-2E-4, enacted in June 1988. Information contained in this document includes indicators cited in that legislation as well as individual school report cards which are disseminated to parents.

Readers should note that this document is intended to provide a snapshot of West Virginia education at a given point in time, the 2005-2006 school year. This information should not be used in isolation, but rather in conjunction with other facts and statistics, including historical data, to make sound education decisions and to track academic progress in the Mountain State.

The West Virginia Department of Education is pleased to provide this valuable information to policy makers, parents, school employees, and other interested persons in this printed format. This information is also available in PDF format on our website, http://wvde.state.wv.us.

If you would like further information or clarification, please contact J. Michael Cox, Coordinator, Office of Technology and Information Systems, West Virginia Department of Education, 1900 Kanawha Boulevard, East, Building 6, Room B-346, Charleston, West Virginia 25305-0330, phone (304) 957-9833 ext. 53432 or e-mail at jcox@access.k12.wv.us.

## WEST VIRGINIA REPORT CARDS: STATE, COUNTY, AND SCHOOL DATA FOR 2005-2006

 Executive Summary
## Introduction

The West Virginia Report Cards: State, County, and School Data provides data at the school, county, and state levels for the most recently-completed school year on indicators concerning public school education in West Virginia; excluded are alternative, special education, vocational, and certain state-funded schools. Where applicable, data for the excluded schools are included in the county and state totals. Data are reported for indicators that are mandated by state law (§18-2E-4) or West Virginia Board of Education policy. The reporting systems are annually updated and are continually refined and developed as the West Virginia Department of Education data systems are improved.

There are four versions of the school data reports. The first two versions provide information on student and personnel characteristics and educational outcomes. The first version, a report card for each individual public school, is prepared by the Department of Education and forwarded to the county school board. The county board is responsible for duplicating and distributing the individual school report cards to parents and making copies available to the local media and the public. The second version, titled West Virginia Report Cards: State, County, and School Data, provides in a single document the same information, plus county information. A Reference section with detailed definitions, sources, and formulas is provided at the end of the document. The third version is County Assessment and the fourth version is County Accountability.

## Background

In 1981, the West Virginia Department of Education took a data-oriented approach to improving educational programs when it began to 1 ) identify the data elements to be collected in a trend-reporting format, 2) coordinate all data bases by compiling and computerizing information, and 3) provide decision makers at the state and local levels with accurate, timely information to use in policy development and school and program improvement.

Several actions on the national scene have supported the use of this approach to educational improvement. In 1984, the Council of Chief State School Officers (CCSSO) stated that high quality data are essential to 1 ) continue the momentum of educational reform, 2 ) aid policy makers in understanding the consequences of changes in policy and in implementing policies once they are adopted, and 3) make education accountable to the public. In 1985, the CCSSO further recommended that all states improve and strengthen their systematic monitoring of the condition of education and annually report to the public.

In 1988, the National Center for Education Statistics (NCES) established the National Cooperative Education Statistics System, which was designed to produce and maintain, with the cooperation of the states, comparable and uniform educational information and data. Through SPEEDE/ExPRESS, a format was developed for electronic transferral of student transcripts from school to school or school to college registrars. In keeping with these national trends, the West Virginia Education Information System (WVEIS) permits the uniform reporting of data for use in decision making. These actions at both the state and national levels help give a comprehensive picture of education to policy makers from the school to the national level.

In June 1988, the West Virginia Legislature enacted West Virginia Code §18-2E-4, which mandated school, district and state report cards. These documents provide information on public education in West Virginia and are annually updated and continually refined and developed. The WVEIS improved and standardized the method of data collection and allowed for more timely information.

In March 1996, the West Virginia Legislature enacted Senate Bill 300, the Jobs Through Education Act. Senate Bill 300 is a comprehensive reform effort that has impacted the total education system in grades K-12 and postsecondary education. Additional indicators were included in that bill on which to report school, county (district), and state data and are included in this volume of the West Virginia Report Cards: State, County, and School Data.

On Jan. 8, 2002, President Bush signed into law the No Child Left Behind (NCLB) Act of 2001 (PL 107-110). This new law represents his education reform plan and contains the most sweeping changes to the Elementary and Secondary Education Act (ESEA) since it was enacted in 1965. This legislation will impact future data reporting.

## Limitations and Assumptions

Original sources from within and from outside the West Virginia Department of Education provided the data in this document. The majority of the data originated from student and personnel records maintained by county- and school-level staffs and was retrieved through the West Virginia Education Information System. Every effort was made to assure that the information was accurate, valid, and reliable. In some instances, however, the student records were not properly maintained; thus "NA" (Not Available) may be recorded for the indicator. After publication of this document, every attempt is made to correct any discrepancies among data obtained and/or reported, and appropriate education officials are notified of any changes.

When interpreting trend data, the reader needs to take into consideration changes that may have occurred in the past. For example, teacher position codes have been added in the last five years which may affect the teacher/pupil ratio. In some cases, the formula for calculating a rate has changed. For example, the dropout rate calculation was changed in 1996-1997 to comply with federal reporting procedures. Where there is no comparability between the 2003-2004 statistics and past years' statistics or the data are not available or applicable, an "NA" or two dashes may have been printed. In 2003-2004 Achievement Test was changed to WESTEST-West Virginia Educational Standards Test because of No Child Left Behind. Trend data is not available. Percentile scores are no longer reported, only percent of students who are proficient. Detailed information on the test can be found on the WV Achieves web-site: wvachieves.k12.wv.us.

## Trend Data

Statistics contained in this document should not be used in isolation, but rather in conjunction with other facts and figures in order to make sound education decisions. When possible, longitudinal data should be used to help make meaningful decisions. A look at the last five years of state data shows where progress has been made and any areas of weakness where improvement needs to be made. The following data are for indicators at the state level for 2001-2002 through 2005-2006.

IRGINIA REPORT CARDS 2005-2006

## MESSAGE FROM THE STATE SUPERINTENDENT

Information in the West Virginia Report Cards allows us to see how well our students are performing, how well individual schools and county school systems are performing, and the areas of strength and areas needing improvement. Results for the 2005-2006 school year are very positive, as West Virginia has continued the trend of steady improvement experienced in recent years. The Report Cards allows us to celebrate our many successes, while providing us with the opportunity to focus on the challenges facing public schools in the Mountain State.

The West Virginia Department of Education and the West Virginia Board of Education have been reviewing the way students are taught and what curriculum is offered to students to determine how schools can be more efficient and effective. Continued public input is vital if we are to provide a quality education and teach skills that are needed in the workplace of today and tomorrow.

Our Governor, Legislature, State Board, and school employees throughout the state are firmly committed to providing West Virginia students with the best education possible-a world-class education. After all, West Virginia's graduates not only compete with students in neighboring states, but they must also now compete with graduates across the globe for the same jobs.

MESSAGE FROM THE COUNTY SUPERINTENDENT

Welcome to Berkeley County Schools. Our school system is dedicated to serving students by providing state-of-the-art technology, instruction, and facilities to promote higher student achievement in preparation for a successful future. I am pleased to have the opportunity to tell you about our schools.

Because our county has been experiencing an average annual increase of 5 percent in student enrollment, we are somewhat unique among West Virginia school districts. That percentage translates into approximately 700 new students per school year -- enough to fill a new middle school. Since 1998, seven new schools have been opened.

The growth is due to our unique location in West Virginia's Eastern Panhandle. Located at the northern gateway to the historic and scenic Shenandoah Valley, Berkeley County is within a few minutes of three states - Pennsylvania, Maryland, and Virginia -- and within the
Washington, D.C. Metropolitan Statistical Area. Our county's location, its human resources, and its quiet country atmosphere continue to draw new business and industry and new families.

We are a vibrant school district committed to providing all students with a quality education that will best prepare them to be productive citizens. Let me extend an invitation to visit Berkeley County and our schools. This is an exciting time in education. See for yourself!

MESSAGE FROM THE COUNTY SUPERINTENDENT

Boone County Schools has as our mission to accept the responsibility and the accountability to create conditions that produce both quality and equity in student results. We will provide rigorous, high quality educational experiences that ensure success for ALL students. Boone County operates 17 schools which include a career center and pre-kindergarten center.

As we "Focus on High Expectations" necessary for continuous improvement it is important to share our county beliefs. We believe given time and opportunity, ALL students will achieve mastery of the essentia curriculum. With strong instructional leadership and highly qualified personnel we can drive the curriculum to achieve mastery and beyond for ALL. Boone County Schools believes that commitment towards a systemic continuous improvement model will enhance teaching and learning for ALL. Assessment, data disaggregation and instructional focus are essential components for measuring student achievement. We will provide a positive, safe and nurturing environment for ALL students to achieve mastery and through collaboration with parents and community members we will provide greater educational opportunities for school improvement.

Boone County takes pride in our school facilities and grounds. We have one of the highest ratios for students per computers in the state and are very pleased with our ability through the county tax base to offer one of the top pay scales for both professional and service personnel. Our transportation department ranks in the top five throughout WV in safety, maintenance, and cost efficiency. With one of the longest running records for passage of a school levy, we are also able to offer many enriching curricular and extra-curricular activities that are unique to our county.

We invite you to come and visit Boone County Schools. Our informational website address is: http://www.boonecountyboe.org

MESSAGE FROM THE COUNTY SUPERINTENDENT

Brooke County is a progressive school system that faces the challenge of preparing its student for the 21st century. All twelve (12) schools are connected to the Internet with a technology goal of one computer for every four students. West Virginia-recognized Schools of Excellence are Brooke High School, Wellsburg and Follansbee Middle, Franklin, Hooverson Heights, and Colliers Primary Schools. During the 2006 WV Achieves Recognition Program, L. B Millsop Primary School and the Career Technical Program at Brooke High School were selected as Exemplary Schools. We have approximately 70\% of graduating seniors furthering their education in post-secondary settings. The Brooke County Board of Education believes that "All Children Can Learn," and is incorporating high academic standards into the Five Year Strategic Plan with the hope of helping all students reach higher levels of learning. We strive daily to make our facilities clean and safe for our children and staff where students can learn and teachers can teach. The Brooke County Board of Education has a zero tolerance policy for all violators of the various state codes commonly known as the Safe Schools Act.

Brooke County Schools is a 1998 through 2006 School Match Winner based on "What Parents Want for Their Schools." During these years, only ten (10) counties in West Virginia and 14 percent of the nation's schools were selected for this award.

In summary, Brooke County Schools has a top priority of increasing student achievement and commitment to incorporate 21st Learning strategies into our instructional practices. We look forward to the future in meeting the needs of our students and changing community.

Cabell County Schools will empower all students to reach their highest potential so they will become life-long learners and responsible citizens.

This mission statement is an expression of the vision for the students of Cabell County. There is no doubt that the teachers, support staff, Board of Education members, and citizenry of our community are dedicated to the success of every student. We understand and embrace the concepts of academic rigor, content relevance, and meaningful relationships in the development of competent 21st century learners. The ideal of a learning-focused school system is the driving force for direction in Cabell County.

As our students enter the workforce, they will be equipped with the ability to initiate and adapt to change by learning new skills quickly. International borders are becoming culturally and technically translucent and quality depends on the application, creative thought, and communication of new knowledge rather than knowledge alone. The ability to learn has become a primary indicator of success.

Through commitment to these principles, the Cabell County Public Board of Education is ensuring its students will be successful learners entering a challenging, new world.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The "West Virginia Report Cards" publication provides you with important information about the Clay County School System and about your child's school; however, the most important information you receive about your school comes from conversations with your child and from personal contact with school personnel. I believe that the information provided here, combined with information you receive at parent-teacher conferences and from visits to your school, will give you a very positive message about the exciting progress our students, our schools, and our school system are making.

Please feel free to call our office or your building principal if you have questions.

Doddridge County Schools has revitalized its commitment to holding high expectations and standards for all students and to providing high quality programs that help students attain these standards. The hard work and extensive training of our professional and service personnel as well as the support and cooperation of parents and community have placed us on a pathway toward becoming an exemplary school system.

On behalf of the Doddridge County Board of Education, I encourage all of you, whether you are a parent or a community member, to become more involved in the education of our youth. As always, we appreciate and welcome your suggestions for improving our schools

Gilmer County Schools is firm in the belief that those in education must make every effort to meet the needs of all the students in granting them the fullest possible educational opportunities.

As part of a whole community, Gilmer County Schools share their success in providing these opportunities with Glenville State College and the citizens of Gilmer County. Our citizens have continued to support an operating excess levy since 1991. They continue to be proactive in assisting the school system with meeting the educational needs of our students.

Gilmer County Schools has been a frontrunner in utilizing innovative techniques to enhance the commitment of a quality education and to assure a successful learning experience for each student.

I invite you to logon to our website at www.gilmercountyschools.org and visit "the little county that CAN".

MESSAGE FROM THE COUNTY SUPERINTENDENT

The 21st Century has revealed that there are many challenges for our school structures and curriculum. With the shared vision of our state superintendent and state board of education, Grant County is working to evaluate strengths and weaknesses within the Grant County framework that embrace the 21st century skills. These skills are being incorporated into the framework as well as embraced by committees in all planning as well as our EWALKS will document classroom changes to incorporate 21st thinking.

In concert with the changes for 21st Century instruction, the board of education has chosen to adopt the superintendent's goals and will be concentrating on safety and the health of students. With new policy in place, the county is very fortunate to have a strong health advisory committee that has grown over the past five years into one of the strongest countywide committee taking on many challenges from sending home brochurees on drug abuse with report cards to soliciting grants for walking trails, interactive games, and tips for eating healthy.

It is only through a strong team effort and united community support that our system will become stronger and will be even more successful.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The educational climate of Hardy County Schools is one of high student achievement standards and innovative programs. The potential that exists for our students is unlimited. This report card reflects many of our outstanding accomplishments. What may not be reflected in the numbers is the quality of our students, the excellence of our teachers, and the support of our parents and community.

Evidence of the success you will find in Hardy County Schools include:
**A caring, family-oriented attitude toward our students, staff, and parents.
**Initiatives in technology utilization, software applications, and long-distance learning.
**Student achievement is the primary focus of our entire school system.
**Cooperation and collaboration between the school system, community agencies, local and state government, and the business community.
**An expanding student population and growing financial base that is providing a sound foundation for fiscal responsibility, educational stability, and continuous improvement.
**The availability of talented, creative, and dedicated school employees and community leaders who provide an invaluable resource for meeting the needs of all students
**A school-wide system emphasis on "positive" accomplishments that is establishing the belief that Hardy County has one of the best school systems in the state.

The Hardy County Board of Education welcomes your comments, ideas, and suggestions. Please contact us to learn more about how we are "Helping Children Succeed."

## $\mathcal{W}^{\text {EsT }}$ <br> 7 IRGINIA REPORT CARDS 2005-2006

MESSAGE FROM THE COUNTY SUPERINTENDENT

Each year, the progress of Jefferson County students is included in the West Virginia Report Cards. This document helps administrators, teachers, service personnel, and parents track our progress as a school system. All indicators compared in this report have significant impact on or are indicative of student achievement.

In Jefferson County, our teachers, service personnel, and administrators have worked diligently to help our students succeed. We are proud of their progress. We are very serious about our work of helping students to gain knowledge and to experience the thrill that competence brings. Our students have shown improvement and continue to grow.

Let me caution, however, that the success of any school system is not measured and cannot be measured by test scores alone. Test scores cannot measure the satisfaction of personal achievement, the pride of team success, and the feelings which come from a dedicated group of professionals and students.

I urge the Jefferson County community to join us in helping students by contributing time, talent, and resources. As our county continues to grow, such contributions will be returned with interest and you - our parents, business partners, and community residents - will have the satisfaction of knowing you have helped to make a difference in children's lives.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

Lewis County is centrally located in West Virginia. The student population is approximately 2700. Most parents send their children to our school system with expectations of receiving an excellent education. Our service personnel are competent caring individuals. Teachers enjoy teaching young people and instill pride, self worth, and good citizenships in an atmosphere of kindness and caring.

We have the longest on-going school levy in West Virginia, (56 continuous years). This shows community support found in several rural West Virginia school systems. We have also received over 24 million dollars in facilities funding for school improvement. Our bus safety record is one of the best in the state.

We are not a wealthy county but do a fine job educating our young people.

MESSAGE FROM THE COUNTY SUPERINTENDENT

Students will need different and more numerous skills than ever to function successfully in the 21st Century. Lincoln County Schools must provide high quality learning for all students by developing academic skills, while also preparing students to be life-long learners, productive and responsible citizens and to be part of a diverse society.

This task takes everyone -- parents, community, educators, service personnel and most importantly, the student. Educating children is a shared responsibility and we must provide every opportunity for them to learn and grow and to achieve success.

The information provided is a statistical overview of the system that can be used, in part, to measure our success in providing these high quality learning experiences.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The mission of Logan County Schools is to provide a high-quality, world-class education that ensures success for every student through excellence in teaching and learning.

Core Beliefs:
** We believe all students can learn at high levels but in different ways and at different times when provided equal opportunities.
** We believe students must have direction, discipline, and a means to succeed. Their successes should be celebrated and recognized.
** We believe teachers have the desire, ability, and responsibility to motivate and inspire each individual student to achieve his/her highest potential
** We believe classrooms should be organized, structured, safe, disciplined, welcoming, and student-focused to provide the proper environment for learning
** We believe curriculum should be prioritized, mapped, sequential, multicultural, and diverse to provide students a quality learning environment through active, enjoyable, fulfilling activities.
** We believe education is a shared responsibility among the student, school, parent, family, and community.

Goals:
** All students will reach high standards, at a minimum attaining proficiency in Mathematics and Reading/ Language Arts by 2013-2014.
** There will be a decreasing achievement gap among the sub-groups within Logan County Schools.
** Logan County Schools will move into 21st Century Skills by using technology to foster communication, work more effectively, and increase student achievement
** All students will be provided a safe environment in which to pursue a quality and equitable education.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The mission of Mercer County schools is to provide students of all ages an opportunity to become the best they can be by offering the highest quality education utilizing all available resources efficiently and effectively.

We take this mission seriously, and this Report Card indicates our accomplishments. We believe, furthermore, that we have the finest educators in the state. At the heart of everything we do, our students' best interests come first.

Some of our greatest accomplishments as a county school system, however, will not be found in the pages of this Report Card. They reside in the classrooms where teachers meet students where they are and take them to a new level of achievement. The quality of teacher/student interaction is the hallmark of our success.

On behalf of the Mercer County Board of Education and all employees, I invite you to visit us at our Web site, http://boe.merc.k12.wv.us. It is my hope that by working together-community, businesses, parents, service personnel, and educators-we can continue to meet the challenges of the future and positively influence the lives of our young people.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The purpose of this report card is to provide parents and the community with information about the academic status of Mingo County students. It is an honor for me to say, Mingo County schools are "good and getting better".

This report also contains data about pupil-teacher ratio, achievement test scores, and how our children compare with other students in the state.

Test scores are not the only measurement of success in Mingo County. We feel that personal achievement, pride, team success, and the individual satisfaction experienced by our staff and students are all necessary to have a successful school system.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The Monongalia County Schools Report Card provides community members with a snapshot of our school system. The data included offers statistical information on student enrollment, test performance, budget expenditures and personnel. However, the Report Card cannot depict the goals shared by every Monongalia County School's faculty and staff member for improving, enriching and expanding our children's educational experiences. As superintendent, I assure you all those goals are firmly student-centered.

We continuously strive to maintain open lines of communication with our students' parents and the broader community as well. If you have questions about the information presented in this Report Card or any concerns about your child's educational needs, don't hesitate to contact your child's school principal. Please direct general questions about our school system to the Monongalia County Schools' Division of Curriculum and Instruction at 304-291-9210.

Thank you.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

Monroe County's schools have positioned themselves squarely on line to produce students with 21st Century skills, ready for the job market or higher education following graduation. Through two new programs at the high school, James Monroe's graduates will be ahead of the success game because of preparing as a State Scholar and because of the implementation of the 21st Century High Schools That Work goals and objectives.

Since 1994, the face of education in Monroe County has changed dramatically. The closure of five schools, the opening of a new high school, the development of middle schools, the opening of a new K-8 school, and a county-wide initiative focusing on the birth to age nine child have placed major roles in beginning systemic reform that has affected all students. The 21st Century Community Learning Center initiative has provided after-school, evening, and summer programs for children and adults alike and our mentoring program provides students with an appropriate adult role model for many students who need additional adults in their lives.

Because of these initiatives, Monroe County has seen steady increases in test scores, steady declines in the dropout rate, and an overall attitude that the county's schools have much for which to be proud. At the elementary level, collaboration with all agencies has led to greater school effectiveness in helping students make successful transitions from home to school. Middle schools begin an even greater focus on transition as we attempt to bring the elementary child to a readiness for high school, while at the same time addressing the needs of this age group through a focus on hands-on activities, intramural programs, preventive discipline, and the team concept among middle school staff.

At the high school level, our students attend James Monroe High, adjacent to the Technical Center. The Tech Center's greater collaboration with New River Community College and Bluefield State continue to provide benefits for the college bound tech student. High Schools That Work provides the framework for challenging curricula and a focus on 21st Century skill acquisition.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

Ohio County Schools has been and continues to be the underlying institution for building lifelong learning and future accomplishments. High academic achievement, accelerated daily attendance, exemplary graduation rates, and significant scholarship acquisition create the building blocks for the "Foundation for Success."

An aligned curriculum, committed personnel, relevant policies, and community partnerships overlay this foundation to advance Ohio County Schools' mission of developing young people to their maximum potential.

Our citizens have consistently supported and supplemented our efforts through levies and bond issues. We, in Ohio County Schools, are proud to be part of a proactive community which fosters economic development, supports education, and actively works to provide a better quality of life for all its citizens.

Our "Foundation for Success" is solid; indeed it is the fulcrum for growth in the schools, the community, and the future.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The philosophy of the Pendleton County Public Schools reflects the values and expectations of the community which these schools serve. Because of our faith in the dignity and worth of each individual, three major responsibilities are dictated. First, that the services of the county public schools be available to all children and youth, regardless of ability, background, race, or creed. Second, that a range of appropriate educational programs for pupils of different capacities, interests, and abilities be provided. Third, that the Board shall provide the leadership whereby the County's resources are utilized so that all students are provided the opportunity to attain their maximum potential.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

On behalf of the Pleasants County Board of Education and our combined educational staff, we are pleased to provide you with our State Comprehensive Report Card for the current academic year. Hopefully this information will enlighten our students, parents, staff and community, as well as other interested state entities, regarding the accomplishments exhibited in our "schools of excellence."

Included you will find data relative to the academic progress of our students, as well as information regarding existing programs, curriculum and instruction, the budget, faculty characteristics, and other items of interest and/or concern.

The superintendent and central office staff, as well as the personnel in the respective county schools, stand ready and willing to assist you with any questions, interpretations, or suggestions you may have in regard to this report.

Thank you for your continued support as we work together to make the Pleasants County Schools "the best that we can be."

## MESSAGE FROM THE COUNTY SUPERINTENDENT

This report card is given to parents and the general public in an effort to provide insight into the educational process for the children of Pocahontas County. It is no way intended as the only measure of the educational quality of the school system but provides an indication of strength and weaknesses as presented through statistical reporting.

We base our premise on the fact that "All Children Can Learn" and ask you to continue as an active part of this very important process.

## $\mathcal{W}^{\text {Esr }}$ <br> 7 IRGINIA REPORT CARDS 2005-2006

This Report Card is designed to provide information about the previous school year's test results, curriculum, personnel, programs, and financial expenditures. Preston County's goals and objectives are developed based upon the information in this report.

As a school system, we continue to strive to improve our test scores, update our curriculum, involve our parents and business partners in educational issues, and challenge all of our students to try to attain the highest level of educational achievement that will prepare them to become productive citizens in our ever-changing global society. Therefore, we continually upgrade our technology, learning strategies, and curriculum to meet this goal for our students.

MESSAGE FROM THE COUNTY SUPERINTENDENT

Randolph County Schools have implemented many innovative teaching techniques and practices such as curriculum mapping, benchmark testing, and standards-based mathematics to increase the academic achievement of our students. Improvements in curriculum, instruction, facilities, and technology have been made throughout the county. Our mission is to provide an opportunity for all students to be prepared for 21st century jobs. We have in place many programs such as High Schools That Work, School-To-Work, Gear-up Programs for Middle School students, and Making Middle Grades Matter. These are just a few of the programs currently being used to raise expectations for students. We are involved in a Math 33 grant with Lewis and Upshur Counties that works with secondary math teachers on teaching standards-based mathematics and integrating technology in the classroom. Teachers are excited about teaching and students are receiving an excellent education.

There is excellent information about the schools of Randolph County contained in the report card. I would suggest that all citizens read the report carefully and if you have any questions, please contact the school or the superintendent's office.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

The mission of Ritchie County Schools is to foster high quality learning for all students by developing the academic and intellectual skills and character necessary to prepare students for life-long learning, productive and responsible citizenship, healthy living and success in a diverse society
We believe students learn best when...

* Schools are comfortable, well equipped, and are physically and emotionally safe.
* Parents/Guardians provide proper support and structure to enable students to achieve.
* Students and parents accept responsibility for attendance, work ethic, and student conduct.
* All staff members model exemplary character, reflect high expectations, recognize the diversity of learners, and exhibit genuine care and commitment to all students.
* Curriculums are content standards-based, prioritized, sequential, and developmentally appropriate.
* Academic work in the classroom is engaging, student-centered, and challenges students to reach for high standards.
* Instruction is characterized by effective teaching strategies and guided by on-going assessment.
* Academic programs integrate creativity, innovation, and appropriate technology.
* Extra-time and extra-help opportunities exist and are utilized by students.
* Professional development is focused and on-going, equipping teachers to implement effective research-based practices.
This report card gives sample data that partially measures the effectiveness of our efforts to implement our mission and core beliefs. Please take time to review the testing, attendance, curriculum, and finance data carefully. These statistics demonstrate that Ritchie County Schools have established a solid foundation upon which future school improvement can evolve. Our initial WESTEST achievement and Writing Assessment scores are above state average while our high school ACT scores, graduation rate, and PROMISE percentage are also well above state norms. School improvement efforts in Ritchie County have been noted and applauded at the state level. Our attendance rate is above state average and our schools are pleasant, safe and relatively free of the drug and violence scourges found in too many school across the nation.
As you review this report card, please reflect on the accomplishments of our schools with pride; look toward the future with confidence; and commit your energy and will to helping Ritchie County Schools remain one of the state's best school systems.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

Each Roane County school is a community dedicated to the task of educating children to become lifelong learners, and to assume responsibility for their participation in the life of the community. Our ultimate objective is the maximum mental, physical, and emotional development of each child. We strive to create environments and opportunities in which every student can learn and to build the self-esteem of each child. We challenge our youth to strive for personal excellence and to use their talents in service of their community, state, country, and the world.

Educating children is a shared responsibility. Realizing the importance of keeping our parents and citizens well informed about the progress being made in Roane County Schools, we sincerely hope this report provides you with much important information in your continued support of our educational program. MESSAGE FROM THE COUNTY SUPERINTENDENT

The mission of Summers County Schools is to involve the total community in developing all citizens to their fullest potential as active, self-directed, lifelong learners. In order to help us fulfill this mission, our schools are involved in the Partnership Development that has evolved from the School-To-Work initiative. Through the partnerships that we have developed, we offer our students a variety of educational enrichment opportunities such as listening to speakers, participating in field trips, and being involved in work-based learning.

We strive to make our schools a safe learning environment for all of the children through implementation of responsible student programs, peer mediation, natural helps, advisor/advisee, and other student activities. Our belief is that our students will be better able to achieve when they feel safe.

To give all stakeholders an opportunity to participate in the education of children, our schools operate in an open atmosphere. Parental and community involvement is invited at all levels with volunteers being welcomed in our schools. Students, parents, staff, and the community are encouraged to participate in decision making through their Local School Improvement Councils and as members of our Partnership Development Committee.

Summers County takes pride in the successes we have had over the past years. We are striving to improve upon our present level of success and to continue to provide a high quality of education for all of our students.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The mission of the Taylor County School System is to provide a superior educational program for all students so that they can function in the 21st century as effective and constructive members of society. We will provide effective leadership, responsible fiscal management, and quality learning environments which are essential in the delivery of quality visionary programs in each school throughout the county. We share with the home and the community the responsibility for the academic, social/emotional, and physical education of all students so that they will be prepared to live and work in a rapidly changing world.

MESSAGE FROM THE COUNTY SUPERINTENDENT

The mission for Tucker County Schools is "Learning for All", and is based on the following Core Beliefs:

1. We believe all individuals can learn and achieve success.
2. We believe all individuals have the right to be provided with a safe, caring and welcoming environment.
3. We believe all individuals have the right to be treated with respect and dignity.
4. We believe it is the responsibility of all stakeholders, including the community, school personnel, parents and the students themselves to increase student achievement levels.

Towards achieving our mission, we have established three primary goals for our system:

1. Achievement for students with disabilities will increase annually in the areas of reading and math
2. Achievement for all students will increase annually in the areas of reading and math
3. The number of students entering post secondary programs shall increase annually.
4. Students will be provided and taught the skills necessary to use the county's technology infrastructure to enhance learning, increase productivity and promote creative learning.

## $\mathcal{W}^{\text {Esr }}$ <br> 7 IRGINIA REPORT CARDS 2005-2006

Each year the State Department of Education provides the 55 school systems with statistical information on various performance measures. This data is one element considered in evaluating our past effectiveness and to plan for improvement.

Our students continue to positively demonstrate their learning on standardized tests; however, some of our greatest accomplishments will not be found on the pages of this report card. The magic of learning that takes place in our classrooms daily cannot be described in a statistic. Learning takes dedicated students, teachers, support staff, community and administrators; and Tyler County distinguishes itself as a place where all students learn and grow.

We are proud of our school system, although we always strive to improve and build upon our accomplishments. Tyler County students are most fortunate to live in a community that puts their education FIRST. Thanks to the support of Tyler County citizens, businesses, and our dedicated staff, your children will continue to be provided every opportunity to achieve success.

MESSAGE FROM THE COUNTY SUPERINTENDENT

Upshur County Schools strive to provide academic preparation, social responsibility, employability and lifelong learning to their students.

The employees of our county feel strongly that our future depends upon the quality of our efforts. This quality is reflected throughout our community. We ask teachers to expect excellence from students, and we ask students to expect excellence from teachers. By doing so, Upshur County can expect excellence in all aspects of our schools.

MESSAGE FROM THE COUNTY SUPERINTENDENT

I am proud of what we achieve in Webster County...in our classrooms, in our offices, on our playing fields, and stages...but our achievements are not due to complacency and satisfaction with the status quo. Our program is what it is because a staff of dedicated, aspiring men and women have a common goal-to do what is best for students-and always looking for ways to achieve that goal.

This school year, we will continue to concentrate on the processes that spur continuing advancement; evaluating what we have, determining what we can do to improve, and identifying what we need to make improvements.

Our philosophy at Webster County Schools continues to be: "Our children deserve the best. We will not settle for anything less; therefore, we are working daily towards this goal..... Mastery and Beyond for All".

MESSAGE FROM THE COUNTY SUPERINTENDENT

On behalf of our staff and Board, I would like to welcome you to Wetzel County Schools which has a tradition of excellence for our students. Our high expectations are reflected in our mission statement: "Educating Individuals for Success." We hope to nurture each of our students' potential so that they will indeed be able to meet the challenges of the 21st Century and we hope to do so in a safe and caring learning environment.

We strive to see that each student develops an individual desire for excellence, both academically and through involvement in co-curricular and extra-curricular activities. At an early age, we hope to instill within our students a belief in the dignity and respect for themselves and for those around them.

Such expectations can only be achieved when all involved parties--students, teachers, administrators, service personnel, parents, community members, and business partners--are active participants in our school system.

MESSAGE FROM THE COUNTY SUPERINTENDENT

In Wirt County Schools, we believe every student is a priority and deserves the best that we can offer. We are constantly striving to provide the best possible education for each student and see that each reaches his or her highest potential. Welcoming the challenges of the future we are committed to establishing high academic standards and providing quality programs for each student.

The Wirt County community puts education at a high priority. We attribute much of our success to parents, citizens, friends, and supporters of public education. Realizing that educating children is a shared responsibility, Wirt County citizens are actively involved in our schools and have supported an excess operating levy for more than 45 years. Community support and the commitment of our staff ensure that Wirt County children will continue to be provided every opportunity for success.

## MESSAGE FROM THE COUNTY SUPERINTENDENT

The Wyoming County School System believes that education is our bridge to the future and makes every effort to provide our students, pre-school through adult, with the knowledge, skills, and attitudes required to cross that bridge and become productive citizens.

This Report Card will tell you how well our school system is doing that job. Please contact the school principal or my office if you have any questions or comments.

Original sources from within and from outside the West Virginia Department of Education provided the data in this document. The majority of the data, which originated from student and personnel records maintained by county- and school-level staffs, was retrieved through the statewide electronic database, the West Virginia Education Information System (WVEIS). Please contact the cited West Virginia Department of Education offices for more information about the data.

Advanced Placement in High School Courses. Percentages of tenth, eleventh, and twelfth grade public school students who were enrolled in at least one advanced placement course which uses curriculum designed to prepare the student for taking College Board Advanced Placement Tests. Source: West Virginia Education Information System, Office of Technology and Information Systems.

Advanced Placement Test. Percentages of tenth, eleventh, and twelfth grade public school students who took at least one advanced placement test given by the College Board. Also given is the percentage of twelfth-grade test takers who scored 3 or higher (with 5 being the highest) on any subject-area Advanced Placement Test. Source: Unpublished data tape from the College Board. Office of Technology and Information Systems.

American College Testing. Percentage of public school graduates who took the American College Testing (ACT) examination; the Composite Score is also given for schools with five or more test takers. The Composite Score is presented as " 0.0 " when there were less than five test takers. The ACT Composite Score for the state includes both public and non-public school students who took the ACT. Source: Unpublished data table from the American College Testing Program. Office of Technology and Information Systems.

Attendance Rate. Percentage of K-12 students who were reported as being present at school. The formula for calculating the attendance rate is: Total days present divided by the sum of total days present and total days absent. Beginning in 1996-1997, preschool students are not included in the calculation. Preschool students were included in previous years' statistics. Source: West Virginia Education Information System, Office of Technology and Information Systems.

Average Class Size. Average number of students in a "regular education" classroom (grade levels 1-12), receiving instruction in English Language Arts, mathematics, science, and social studies. Source: West Virginia Education Information System, Office of Technology and Information Systems.

Career Cluster Information. According to West Virginia Board of Education Policy 2510, during the eighth grade year each student, in consultation with his or her parents and school counselor or advisor, selects a broad career cluster. The percentage of students is given for the career clusters. Source: West Virginia Education Information System, Office of Technology and Information Systems.

Classrooms with Split Grades. Number of regular-education classrooms (K-6) with two or more grade levels combined for the purpose of instruction. Source: West Virginia Education Information System, Office of Technology and Information Systems.

## WEST VIRGINIA REPORT CARDS 2005-2006

County Board Information. The names of the county board members, their term expiration date, and the total number of hours of training they received during the year. The number of hours of training are those which meet the definition of training as determined by the West Virginia School Boards Association and the West Virginia Department of Education School Board Member Training Standards Review Committee. County Office Information. The names of the county superintendent, assistant superintendents, and the number of training sessions attended during the school year as related to their area. Source: West Virginia Education Information System, Office of Technology and Information Systems.

County (or State) Population. Figures from 2000 U.S. census are given for the general population in a county and the state of West Virginia. Source: Unpublished data file, West Virginia Bureau of Employment Programs, Labor and Economic Research.

Dropout Rate. Percentage of students in grades 7 through 12 who left school, for any reason except death, before graduation or without transferring to another school. Beginning in 1996-1997, the formula for calculating the dropout rate is: number of dropouts divided by the second month enrollment. Previous years' rates, therefore, are not comparable. Source: West Virginia Education Information System, Office of Technology and Information Systems.

Enrollment by Subject Area in Grades 9-12. Percentage of students in grades 9 through 12 who took at least one class in English Language Arts, foreign language, mathematics, science, social studies. Beginning with 1996-1997, the percentages reflect an unduplicated count of students while previous years’ statistics were duplicated counts of students. For example, a student who took more than two English Language Arts courses in 1996-1997 was counted only one time. In the past, that student would have been counted twice. Exemption to Pupil/Teacher Ratio. Number of public school classrooms in grades K-6 for which exemptions from the pupil/teacher ratio limitations, required by West Virginia Code §18-15-18a, were requested and granted under West Virginia Board of Education Policy 2442.3. Source: Office of Technology and Information Systems.

Financial Information. The following statistics are presented: 1) County-level information as mandated by West Virginia Codes §§18-9A-4 and 18-9A-5 on the number of professional educators and service personnel employed that exceeds the number allowed by the public school support plan and the amount of salary supplement that would be available per state authorized employee if all expenditures for such excess employees were converted to annual salaries for state authorized professional educators and service personnel; 2) the per pupil expenditure based on $10^{\text {th }}$ month enrollment; and 3 ) the instructional and noninstructional expenditures by classification. For the per pupil expenditure, all expenditures are included except those for capital improvements, community services, adult education and transits/transfers. Expenditures for RESA and child development centers are not included and the expenditures of multi-county vocational centers are allocated to the county boards served by each MCVC.
